

News & Magazine | Tote Cabinets

MAKERS OF FINE CASH SAFES

PROTECT YOUR PRODUCTS

Early newspaper and magazine deliveries have been under threat for sometime. Expensive magazines left unattended and bundled at the front or rear of shops are now a very desirable target for the thief. Specialist magazines can sell readily on the black market offering an easy opportunity to maximise on a clear lack of security. S.M.P. Security Ltd., have developed, in conjunction with a leading High Street retailer a range of High Security News and Magazine Tote Cabinets offering secure storage, which is superior to any other method on the market today.

News & Magazine Tote Cabinets

The S.M.P. Range

The S.M.P. Range of News and Magazine Tote Cabinets has been born out of thirty five years of cash safe manufacturing. It includes 3-Way High Security Locking, integrated to a superb Interlocking System for Double Door models, secured by an Anti Tamper Keylock and Handles. The second layer top section, angles all rainwater away from the front of the unit and drains to the side. Inside the unit a strong steel base ensures there is no "Lip" to lift over. All sizes have the same footprint area which can be back fixed and / or base fixed to ensure protection against removal.

Special soft wheeled models in a lighter gauge material have been developed for use in Town Centres or Shopping Centres in fact all areas where ease of use and protection of flooring is essential. Units can be temporarily anchored, guarding against unauthorised removal.

Colours

Colour coding to suit a shops I.D. or shop branding is possible at a small additional cost, however, light grey is the standard colour.

Boltwork

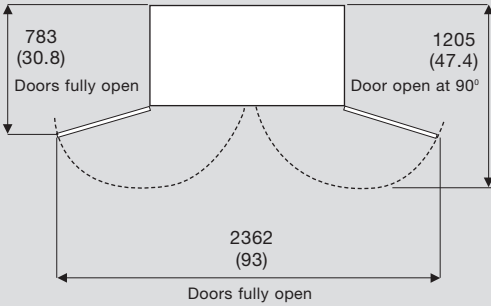

3 Way Multipoint Boltwork for this type of Cabinet is an innovation. Both Doors interlock to form a strong resistance to attack by levers or wedging. The Tamper Keylock makes sure the Lock cannot be affected by glues, resins or from being blocked by foreign objects.

Weatherproofing

As well as the secondary top which gullies water away from the doors and to the side, there is a special seal at the base of each door avoiding any possible moisture ingress.

Handle and Lock are protected from accidental damage on the outside face, which also affords some weather protection.

- Superior security for newspapers and magazines.
- 3-Way security locking system.
- Anti-tamper keylock and handles.
- Weatherproof and waterproof.
- No “Lip” to lift over.
- Soft wheeled models available for shopping centres.
